Mesa Industries Inc. Announces Office Relocation and Expansion

Company's new office space supports current and future planned capacity growth

Cincinnati, Ohio USA – April 21, Mesa Industries Inc., is a family owned business. Since 1967, Mesa Industries have manufactured high quality products for the petroleum and construction industries worldwide. Mesa is continuing to grow. As a result, they recently remodeled 6,897 square feet of office space located at 4027 Eastern Avenue.

According to Mesa's CEO, Terry Segerberg the company's growth made it necessary for the upgrade and expansion of their existing facility. This facility expansion will be facilitated in part by relocating the corporate offices to a separate building across the street from their existing offices. "As our products and solutions have become the choice for customers, the demand has risen, said Segerberg. Our new office will support our continued growth and expansion, and provide a more collaborative work environment for our current and future staff."

The remodel was completed by Cincinnati Commercial Contracting, LLC.
